

Conquering the Complexity – Managing Third-party Risk

Myron Mallia-Dare

Business and Technology Lawyer @Miller Thomson LLP

Myron, with an Entrepreneurship M.B.A. and years of practical legal and business experience, has a practice that combines IT and business law. His focus includes the legal impacts of innovative FinTech and RegTech technologies, such as AI, cloud computing, blockchain, technology licensing, and commercialization. With his financing, M&A and strategic business formation advice, he supports emerging growth companies and start-ups.

Ally Karmali

Associate Partner, Practice Lead, Risk and Compliance @IBM

Ally has 11 years of risk and compliance expertise working for financial institutions across Canada, Asia, and the Caribbean. In IBM's Cognitive Process Services group, he recently acted as CCO/COO for a multinational insurance/reinsurance company specializing in climate risk. Earlier, as a regulator, he helped global regulatory agencies develop and implement regulatory policies for banks and investment managers.

Justin Muscolino

Head of North America Compliance Training @ GRC Solutions (Pty) Ltd.

Justin has over 20 years of experience in compliance, training, and regulation in the financial services sector. Before joining GRC Solutions, he was Head of Compliance Training at Bank of China and created/monitored the annual training plan, including overseeing the training needs analysis. Previously, Justin was Macquarie Group's Head of Americas Compliance Training and JPMorgan Chase's Compliance Training Manager. Justin also worked for U.S. regulator, FINRA, where he created Examiner University to train examiners how to perform their function.

Riley Tighe

Product Manager, IT Risk @ Resolver Inc.

Riley has worked with Resolver for approaching five years and now leads IT Risk and Vendor Relationship Management. He earlier worked as Solutions Consultant and then Solutions Engineer. As a Solution Engineer, he worked on a variety of issues, ranging from enterprise governance, risk and compliance (GRC) to corporate security, and has knowledge of platforms such as Tableau, Intacct and Mavenlink. Working with different departments, he collaborates with executives, product managers, marketing and professional services on product evolution and quality demonstrations.
